

NEW ECONO ULTRASOUND TABLE

Loaded with features... economically priced.

SECTION 2

Accommodates
BARIATRIC
Patients

- Ergonomic design helps prevent musculoskeletal injuries – comfortable shoulder, arm and hand positions when scanning
- Allows seated or standing work positions
- 500-lb patient capacity, suitable for bariatric patients
- Height range down to 23" accommodates wheelchair transfers and those with ambulatory difficulties
- Motorized height and Fowler back
- Hand controller activates table positions
- Retractable stirrups extend extra long for larger patients
- Optional scanning arm board mounts to either side of table
- Optional side rails fold out of the way to allow unobstructed patient access

Biodex Ultrasound Tables Now Feature a Two-Year Warranty

Similar to the Ultra Pro with feature and function, the Econo Ultrasound Table is offered without Trendelenburg positions or central locking casters to deliver a lower cost alternative. The Econo Ultrasound Table is a dedicated table for all general ultrasound procedures including OB/GYN. Choose from an assortment of table options to customize the table to suit your department needs, the table is ergonomically designed to suit both patient and sonographer. The table is so accommodating, it reduces the total amount of time required to achieve a quality image.

There are no barriers between sonographer and patient, allowing correct scanning posture to prevent musculoskeletal injury. The open frame design allows sonographers to get closer to the patient, especially useful for carotid imaging or long leg arterial scanning. The motorized Fowler back is infinitely adjustable up to 80° via hand controller. The leg section drops down to 40° for patients with circulatory issues and 80° for stirrup access.

Suitable Procedures:

- Abdomen
- Aorta
- Endovaginal**
- Hysterosonography
- Testicular
- Musculoskeletal
- DVT/Lower Extremity Venous
- Upper Extremity Arterial*
- Renal Transplant
