Biodex Ultrasound Tables Now Feature a Two-Year Warranty

The Sound Pro Combination Table combines the imaging features of both the Ultra Pro and Echo Pro tables. Fully equipped for OB/GYN, general ultrasound and echocardiography, this extra wide table is ergonomically designed for both patient and sonographer.

The fold away side rails and adjustable sonographer cutout cushion allow comfortable shoulder, arm and hand positions when scanning. There are no barriers between sonographer and patient, allowing correct scanning posture to prevent musculoskeletal injury. The cardiac scanning cutout provides open access to the patient's left thorax area for an unobstructed apical approach. The motorized Fowler back is infinitely adjustable to 80° via hand or foot controller.

The Sound Pro Combination Table is so accommodating, it reduces the total amount of time required to achieve a quality image. Stress patients are off the treadmill and quickly onto the table in imaging position. Patient comfort is assured even through lengthy procedures by cushioned arm supports, a thick mattress and a multitude of comfort-driven design details. The unique swing-out cardiac scanning cutout cushion doubles as an armrest, while the leg section drops down to 40° for patients with circulatory issues.
