Biodex Ultrasound Tables Now Feature a Two-Year Warranty

The Ultra Pro Ultrasound Table is a dedicated table for all general ultrasound procedures including OB/GYN. Choose from an assortment of table options to customize the table to suit your department needs, the table is ergonomically designed to suit both patient and sonographer. The table is so accommodating, it reduces the total amount of time required to achieve a quality image.

There are no barriers between sonographer and patient, allowing correct scanning posture to prevent musculoskeletal injury. The open frame design allows sonographers to get closer to the patient, especially useful for carotid imaging or long leg arterial scanning. The motorized Fowler back is infinitely adjustable up to 80° via hand or optional foot controller. The leg section drops down to 40° for patients with circulatory issues and 80° for stirrup access. Five-inch locking swivel casters and a central locking system, accessible from either side of the table, secure table position.
