

## TABLE ACCESSORIES

### C-ARM SCATTER RADIATION SHIELD

**P**rotect yourself from scatter radiation. Biodex offers maximum protection Scatter Radiation Shields, designed to fit all Biodex C-Arm tables with a contour top. These shields are custom

fitted to match the unique contours of the Biodex tabletop. Constructed of 0.5 mm lead equivalent panels, the shields do not impede C-Arm access.

There are two shields available. One is designed to be used at the head end of the table for head and cervical procedures. The other is used at the main section of the table during thoracic or abdominal procedures.

The shields are easy to add or remove as needed. There are no attachment parts necessary, no metal to obscure the image. The shields simply drape over the tabletop, beneath the mattress. Shields are purchased individually and may be used in combination for total protection or for select region of interest.

**058-856** Radiation Shield, Head/Cervical .....

**058-857** Radiation Shield, Thoracic/AB .....

### C-ARM TABLE ACCESSORY CLAMP

**T**he Biodex C-arm Table Accessory Clamp is designed to mount to all Biodex carbon fiber top C-arm tables. It is used to attach a table accessory, such as arm boards or fistula boards that require standard OR accessory railing. The clamp will accommodate any standard OR locking block, and can be placed anywhere along the length of the table to provide six inches of OR accessory rail.

**058-849** Clamp, Accessory, C-Arm Table .....

### CARBON FIBER ARM BOARD

**C**arbon Fiber Arm Boards are completely radiolucent with no metal parts to obscure the image. They are the perfect

accessory for studies when "chasing the bolus" from the injection site is required. The body of the arm board slides under the table mattress and is held in place by the weight of the patient. Both single and double sided arm boards are available.

#### SPECIFICATIONS:

Weight:

056-865: 3.1 lb (1.4 kg)

056-866: 4.0 lb (1.8 kg)

**056-865** Arm Board, Carbon Fiber, one arm .....

**056-866** Arm Board, Carbon Fiber, two arms .....

*Fits Surgical C-Arm Tables 840, 846 and 870 Pain Management Table*

### CARBON FIBER SURGICAL ARM BOARD

*Perfect for fistula repair procedures and hand/wrist surgery with a C-Arm*

**C**ompletely radiolucent, the Carbon Fiber Surgical Arm Board allows for C-Arm visualization of the entire arm and into the shoulder. With a wide surface and 2" thick padding, the carbon fiber arm board is designed on an angle to provide more natural positioning. It has a support leg that can be adjusted within the same height range as our tables. The carbon fiber is .125" thick and is overlapped instead of woven to minimize attenuation during the imaging process.

#### SPECIFICATIONS:

Dimensions: 12" w x 28.125 (30.5 x 71.4 cm)

Thickness: 2.25" (5.7 cm)

Height Adjustable: 24.5" to 44.5" (62.2 x 113 cm) ~
